

Compliance Management System

Hourglass IT's Compliance Management System (CMS) simplifies your compliance processes with an intuitive dashboard and powerful tools. It enables you to easily monitor, track, and manage all essential certifications efficiently.

Key Features

Automated Scheduling and Reminders

Automate the scheduling of compliance tasks and set up mobile, email, and SMS reminders to ensure timely completion and avoid delays.

Digital Documentation

Securely store all your compliance documents in one place, ensuring easy access and retrieval anytime.

Escalation and Notifications

Automatically escalate missed tasks and notify responsible authorities for quick resolution, keeping your team on track.

Approvals

Set-up Approvals pre-application of compliance certificate and post receipt of compliance certificate.

Add New Certificate

Easily enter and register new certificates into the system.

Categorize Certificates

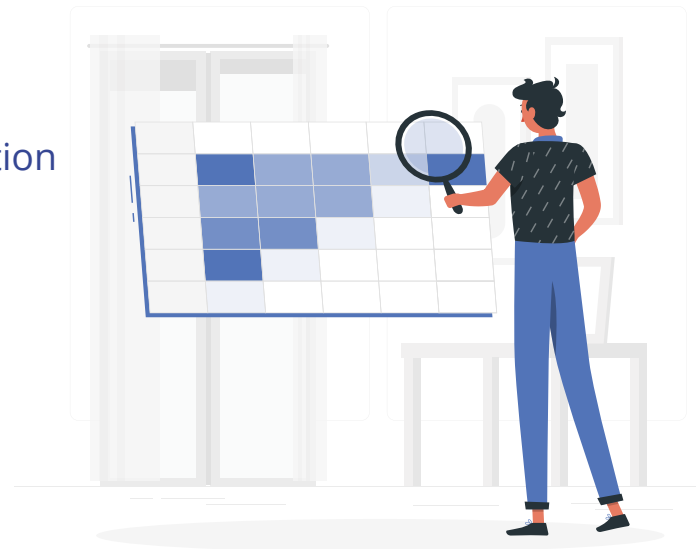

- Certificates that are currently active
- Certificates due for renewal in the next 30 days
- Certificates needing immediate attention that are nearing expiry
- Certificates that are being processed for renewal
- Certificates with issues requiring action

Workflow

View Certificate Details

Quickly access all essential information about each certificate, including its status and renewal dates.

Renewal Tracking

Stay on top of renewal deadlines and ensure certificates are updated before expiration.

Manage Rejected Certificates

Identify the issues with rejected certificates and take the necessary actions for re-approval.

Manage Costs

Identify and record costs / expenses related to each and every certificate individually with dates and approvals.

With our **Compliance Management System**, keep your compliance tasks organized, automated, and efficient, ensuring smooth operations and reducing risk.
