

Doctor Appointment Booking System

Revolutionize Healthcare Scheduling

Hourglass IT's Doctor Appointment Booking System is a cloud-based solution that simplifies scheduling for patients and doctors. It enhances operational efficiency, improves patient experience, and supports both in-clinic and virtual consultations.

Seamless Workflow

For Patients

1. **24/7 Online Booking:** Schedule appointments anytime, anywhere
2. **Real-Time Availability:** View and select from available time slots.
3. **Multi-Branch Scheduling:** Book across multiple locations.
4. **Appointment Management:** Reschedule or cancel with ease
5. **Book for Self & Family:** Book appointments for yourself and your family members using a single login.
6. **Prescription Access:** View and download prescriptions post-consultation.
7. **Patient Portal:** Manage appointments and medical records securely.
8. **Cancellation and Waiting Room Management:** Cancel appointments to open up slots for others. Upon arrival at the clinic, patients are moved to a digital waiting room for smooth flow and visibility.

For Doctors

1. **Multi-Branch Scheduling:** Manage availability across multiple locations.
2. **Appointment details:** Access today's, upcoming, and past appointments.
3. **Prescription Management:** Generate and share prescriptions digitally.
4. **Patient Records:** Access comprehensive patient histories for informed care.
5. **Revenue Tracking:** Monitor payments, track earnings, and grow your practice with built-in revenue insights.
6. **Analytics Dashboard:** Monitor performance and patient engagement.
7. **Custom Health Charts & Announcements:** Share tailored health charts and important updates like vaccination alerts.
8. **Monitor health vs WHO Charts:** Monitor children's health and growth in comparison to recommended metrics from the World Health Organization (WHO)

Benefits at a Glance

1

Enhanced Patient Experience

Simplify the booking process

2

Operational Efficiency

Automate administrative tasks.

3

Increased Revenue

Optimize appointment slots and reduce cancellations

4

Improved Communication

Facilitate better doctor-patient interactions.
